

CompleteView™ VIDEO MANAGEMENT SOFTWARE

NETWORK FRIENDLY VMS SOLUTIONS

The CompleteView Video Management Software product portfolio delivers everything you need to manage your video surveillance system from single-server to multi-site enterprise installations. CompleteView software is designed from the ground up with network friendly features that minimize bandwidth impact and facilitate system administration. CompleteView fulfills today's wide range of enterprise video surveillance and management needs and easily adapts to evolving network and IT requirements. Built on the foundation of open standards and open architecture, CompleteView protects your investment as well as your enterprise. Developed and owned solely by Salient Systems, CompleteView is ideally positioned to evolve as future surveillance requirements are defined and demanded by the market.
