

## **Salient Systems Brings on New Product Manager**

### **Brian Carle Brings Experience, Industry Knowledge, Proven Success in Market**

Austin, TX (August 25, 2008) – Salient Systems Corporation, a leading provider of advanced video surveillance and video management software solutions, announces the appointment of Brian Carle as Product Manager for Salient’s flagship product, CompleteView. Brian will be responsible for continuing the core competencies of the product, launching new functionality with LiveView, Salient’s web client, rolling out MapView, Salient’s newest addition for mapping with drag and drop interface, adjustable field of view, click and drag editing, image scaling and hyperlinked maps. Brian will also be responsible for enhancing the CompleteView product line with Application Development Partners and will be instrumental in implementing the company’s future strategies.

Brian Carle recently served as ADP Program Manager for Axis Communications, the industry leader in the global network video market, where he was responsible for designing and developing the Axis’s Application Development Partner program. Since 2000, Brian has held positions as Technical Support Engineer and Senior Sales Engineer and has been a speaker at forums such as VSI Summit, SIA webinars, IP Institute and Axis Communications Academy.

### **ABOUT SALIENT**

Salient Systems Corporation offers a comprehensive IP and Analog video surveillance management system. Salient’s premiere application software suite is a total solution with all components required for sophisticated camera management, extensive video recording, event management, alarm and notification, feature-rich smart search capabilities, web based client functionality and mapping. Built on the foundation of open standards and open architecture, CompleteView is scalable and provides everything needed to manage a multi-server enterprise video system from a single desk-top. Salient Systems CompleteView can be found in state and local government agencies, municipalities, k-12 and Higher Education campus settings as well as industrial and commercial real estate enterprises.
