

CompleteView Product Training

During the product training course, participants will begin with a brief history of Salient Systems Corporation, followed by an overview of the company's software and hardware, general video information, image resolution and compression. Trainees will then receive the latest CompleteView server and client trainings, where they will participate in several different lab sessions. Training will conclude with exploring the storage calculator and pricing quote requests, followed by a certification exam.

Classes are taught by Salient's Training Manager Mark Call. Upon completion, participants will receive a fully working version of our product, four IP licenses, an in-depth training manual and certificate of completion.

Training sessions in Austin are held at [The Commons Center of UT Austin](#) over a one and a half day period. Breakfast and lunch are provided during the breaks; coffee and water are provided during the session. The cost is \$395, which includes all materials. Payment must be sent with registration. Private on-site sessions are also available; please email mark.call@salientsys.com for more information.
