
LPRTRACKER

LPRTracker from Salient Systems provides powerful License Plate Recognition recording and alerting capability integrated with CompleteView 20/20™ Video Management System. LPRTracker delivers clear and actionable video evidence correlated to license plate detection events. Alerting capability provides real time notification of VIP customers, employees, watch list vehicles along with key details, such as the name and photo of the registered vehicle owner. Market leading investigation features make identifying evidence fast and simple.

License plate evidence can be associated with video from multiple cameras, capturing details from every angle. Partial plate matches and wildcard character searching is supported. LPRTracker makes security, parking management and visitor identification easier and more effective.

FEATURES

LPR for easy identification of vehicles and associated owners

Build customized search conditions

Video correlated with LPR detection

Real time notifications
