

# TRANSACTIONTRACKER

TransactionTracker from Salient Systems provides a powerful loss prevention solution by integrating CompleteView 20/20™, Salient's Video Management System, with point of sale systems. TransactionTracker delivers clear insights and actionable detail for a sophisticated loss prevention strategy. Exception list alerts, quick investigations with associated video, incident reporting and remote access puts the power of loss prevention security in the hands of loss prevention professionals.

TransactionTracker is a fully integrated video solution that synchronizes POS transactions, video data and exception-based reporting systems with accurate time stamps, enabling investigators to quickly find what they need. This increased capability captures shrinkage and fraud and acts as a preventive system in retail operations.

## FEATURES

- Loss prevention from employee theft, fraud
- Effective exception review
- Create incident reports instantly
- Build customized search conditions
- Store performance at a glance
- Extensive video-based reporting
- Audio support in live view mode or on recorded video
