## OPEN CLOUD VIDEO DATA PLATFORM

### UNLOCK INTELLIGENCE IN VIDEO

Invest in a platform that meets your current needs without handcuffing your future.

#### PLATFORM

Whether you are a small business, a large global enterprise, or something in-between, CompleteView brings deployment simplicity and unmatched scalability.

#### CLOUD SERVICES

Unlock operational efficiency and value by connecting to Salient Cloud Services. Access video from anytime, anywhere, on any device. Maintain uptime with remote monitoring and maintenance.

#### HARDWARE APPLIANCES

The PowerProtect platform is engineered for continuous and durability and offers a wide range of powerful workforce and NVRs to match your unique requirements.

#### SCALABLE

Salient's open video data platform grows with your security operations, from a single user or small team to individual scale security organizations designed around the world.

#### OPEN

Salient's open architecture enables your organization to seamlessly leverage existing technology's investments and minimize disruption as hardware and software infrastructure changes over time.

#### EASY TO USE

Minimize the complexity of displaying, managing and growing best in-class video surveillance operations with Salient.
